

Figure 1 shows the effect of SpWM 110-121 peptide on thymidine incorporation in resting and anergic T cells. The data are presented in four panels (A, B, C, D) showing the effect of different concentrations of SpWM 110-121 peptide on thymidine incorporation in resting and anergic T cells. The x-axis represents the SpWM 110-121 peptide concentration in μM on a logarithmic scale. The y-axis represents ^3H Thymidine incorporation. Panel A shows the effect of SpWM 110-121 peptide on resting and anergic T cells. Panel B shows the effect of SpWM 110-121 peptide on resting and anergic T cells. Panel C shows the effect of SpWM 110-121 peptide on resting and anergic T cells. Panel D shows the effect of SpWM 110-121 peptide on resting and anergic T cells.
